**ANDRETTI AUTOSPORT
USF2000 NATIONAL CHAMPIONSHIP
NOTES AND QUOTES, POST-RACE
NEW JERSEY MOTORSPORTS PARK**

SAGE KARAM, #8 TEAM COMFORT REVOLUTION CAR

- Finished in 9th place; led the race before experiencing a problem with the radiator

"We had a good race car at the beginning of the race today. I made a little mistake and a rock dented the radiator. Water was pouring out which led the motor to overheat. I feel bad for the Comfort Revolution team for the mistake, but we are ready to move on to the next race."

ZACH VEACH, #7 TEAM ADS CAR

- Finished the second race of the weekend in 5th place

"We were still struggling with car setup but made some changes. We have some ideas of how to do things better, which we'll be able to try out at the Road America test. I feel for my teammate Sage. It's racing and every weekend something happens, and this weekend it was our team with bad luck. It's an honor just to be part of such a great team, and I learned a lot this weekend. We're looking forward to the Autobahn. We can put this behind us, and finish out the rest of the season on a better note."
